

ALPINE
SNOWGUARDS®

We keep snow in its place

L-1 Alpine Simguard

Available in both aluminum and a mill finish. Versatile block can be used for managing snow OR as a rail-free solar mounting solution (additional parts needed) Oval-point set screws are pre-installed for ease of use. Color Insert Strip available in a multitude of Firestone® Una-Clad colors.

L-2 Alpine SafeGuard Slate Fence-Style Snow Guard

Available in aluminum, mill finish and stainless steel. 6" x 18" Stainless Steel Base Plate. Accepted by major roofing materials manufacturers without voiding warranties. Grooved front accepts optional color insert strip.

L-3 Bronze Angle Standing Seam Fence-Style Snow Guard

For use on copper roofs with vertical standing seam / double lock panels. Utilizes 2 set screws per clamp.

L-4 Solar SnowMax-Standard For Solar Arrys

Available Materials: Aircraft Grade Aluminum. Available Finishes: Mill Finish Black Color Insert Strip. Fabricated from Aircraft Grade Aluminum.

L-5 Solar SnowMax-R2 for Solar Arrays

Available Materials: Aircraft Grade Aluminum. Available Finishes: Mill Finish, Black Insert Strip. Fabricated from Aircraft Grade Aluminum. Fast and easy to install, Solar SnowMax-R2 is a cost-efficient solar snow management solution.

L-6 SnowMax - Membrane Fence-Style Snow Guard

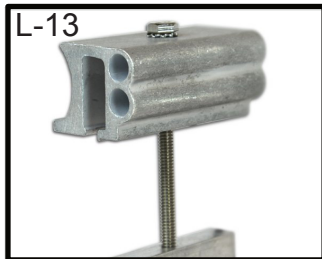

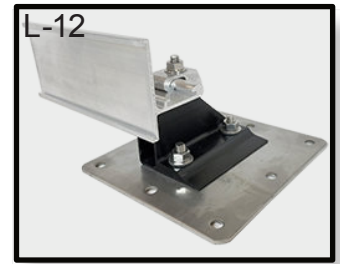

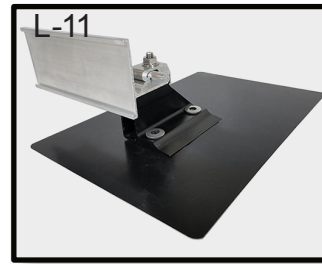

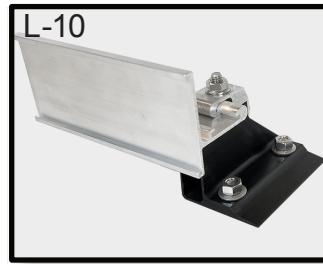

Available Materials: Aircraft Grade Aluminum. Available Finishes: Mill Finish. Fabricated from Aircraft Grade Aluminum Bracket (F-202 Block) measures 3 3/4" L x 2" W x 1 1/2" H (at center - sides are 3/4" H). Includes 6" L x 5.5" W Base plate Increased bracket spacing (up to 48" on center) Color Insert Strip available in a multitude of Firestone® Una-Clad colors.

L-7 SnowMax - Corrugated Fence-Style Snow Guard

Available Materials: Aircraft Grade Aluminum. Available Finishes: Mill Finish. Designed to be installed on corrugated metal roofs Color Insert Strip available in a multitude of Firestone® Una-Clad colors. Simple Seal bushings provide a proven watertight seal.

L-8 Alpine SafeGuard Comp Shingle Fence-Style Snow Guard

Available Materials: Extruded Aluminum with Stainless Steel Base Plate. Available Finishes: Mill Finish. Color Insert Strip (optional) / Powder Coating (additional charge) using RAL TIGER Drylac® Exterior colors. 6" x 12" Stainless Steel Base Plate. Accepted by major roofing materials manufacturers without voiding warranties.

L-9 Alpine SafeGuard Synthetic Slate Fence-Style Snow Guard

Available Materials: Aluminum with Stainless Steel Base Plate. Available Finishes: Mill Finish. Matte Black (12" x 18" flashing)
Patented, watertight seal forms an impenetrable moisture barrier. Meets or exceeds all known building codes.

L-10 Alpine SafeGuard Corrugated Metal Fence-Style Snow Guard

Available Materials: Extruded Aluminum. Available Finishes: Mill Finish. 2 milled countersinks in the underside of the bracket accept 2 Simple Seal bushings.

L-11 Alpine SafeGuard Comp Shingle Fence-Style Snow Guard

Available Materials: Extruded Aluminum. Available Finishes: Mill Finish. GF2V Flashing is backed by IAPMO. Accepted by major roofing materials manufacturers without voiding warranties.

L-12 Alpine SafeGuard Membrane Fence-Style Snow Guard

Available Materials: Extruded Aluminum with Stainless Steel Base Plate. Available Finishes: Mill Finish. Multiple attachment methods for use on most roof types. Grooved front accepts optional color insert strip.

L-13 Solar Snow Pad for Solar Arrays

Available Materials: Aircraft Grade Aluminum Available Finishes: Mill Finish & Powder Coating. For use on portrait or landscape solar panel orientation. Optional 3/8" stainless steel rods can be installed to create a pipe-style snow guard system.

L-14 Three-Pipe Height Adjustable Snow Guard and Base Plate for Ludowici Spanish Tile

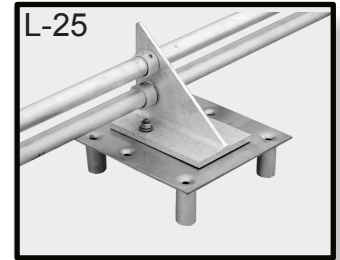

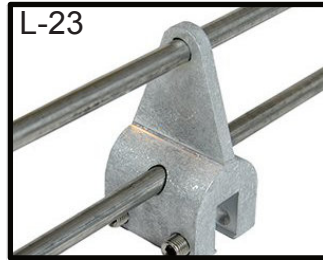

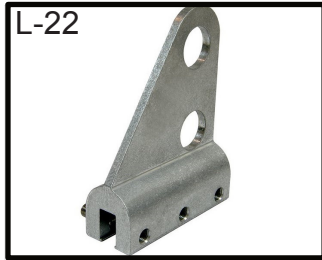

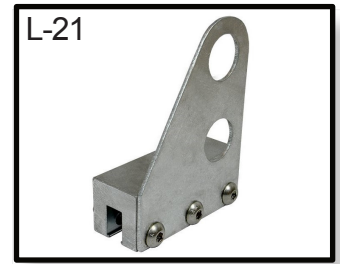

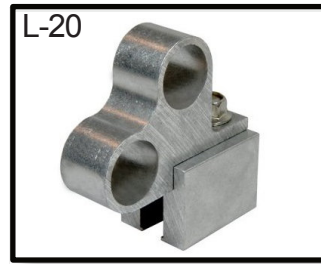

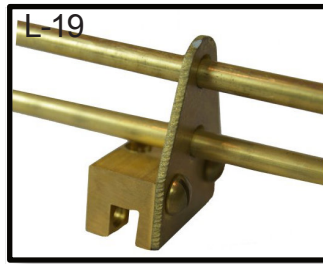

Available in both Aluminum and Brass. Tile Base Plate is available in 2 lengths to match your tile: 13 1/4" L or 18 1/4" L (both lengths are 10 9/16" W overall). Overall measurements (Base Plate with Bracket extended to tallest, most upright position): 13 1/4" L (or 18 1/4" L) x 10 9/16" W x 11 1/16" H

L-15 Two-Pipe Snow Guard

Bracket is Aluminum & the base plate is Stainless Steel. Bracket measures 3 3/4" L x 2" W x 3 1/8" H Compatible Target Patch (available in many colors) bolts between Base Plate and Bracket, forming a compression seal. Accept 1" OD Pipe (Tubing)

L-16 Two-or-Three Pipe Snow Guard for Narrow Spaces

Available in Aluminum with Stainless Steel Base Plate, Brass with Stainless Steel Base Plate & Brass with Brass Base Plate. Base Plate (PP315) measures 6" L x 2" W. Bracket (PP314) with Base Plate (PP315) measures 6" L x 2" W x 6 15/16" H overall. 3 configurations include 2-Pipe, 3-Pipe, 2 Hi-Pipe (Hi-Hole). All configurations accept 1" OD Pipe (Tubing).

L-17 Two-or-Three Pipe Snow Guard

Bracket is available in Aluminum or Brass. Base Plate is available in Stainless Steel or Brass. Bracket measures 6" L x 1 3/8" W x 6 13/16" H overall. 3 configurations include 2-Pipe, 3-Pipe, 2 Hi-Pipe (Hi-Hole). All configurations accept 1" OD Pipe (Tubing).

L-18 Mini Standing Seam Two-Pipe Snow Guard

Forged from a solid block of recycled Brass. Measures 2" L x 1" W x 2 13/16" H overall. Accepts 3/8" OD Pipe (Rod). End Collars are available for this system.

L-19 Standing Seam Two-Pipe Snow Guard

Milled Aluminum Construction. Clamp measures 2" L x 1 1/2" W. Utilizes oval-point set screws. Configurations available for both vertical seams and horizontal seams. Accepts 1" OD Pipe (Tubing)

L-20 Standing Seam Two-Pipe Snow Guard

Milled Aluminum Construction. Measures 4" L x 1 5/8" W x 5 5/16" H overall. Utilizes oval-point set screws. Configurations available for both vertical seams and horizontal seams. Accepts 1" OD Pipe (Tubing).

L-21 Standing Seam Two-Pipe Snow Guard

Milled Aluminum Construction. Measures 4" L x 1 5/8" W x 5 5/16" H overall. Utilizes oval-point set screws. Configurations available for both vertical seams and horizontal seams. Accepts 1" OD Pipe (Tubing)

L-22 Standing Seam Two-Pipe Snow Guard

Forged from a solid block of recycled Aluminum. Measures 4" L x 1 1/2" W x 5 1/4" H overall. Utilizes 3 set screws. Accepts 1" OD Pipe (Tubing).

L-23 Mini Standing Seam Two-Pipe Snow Guard

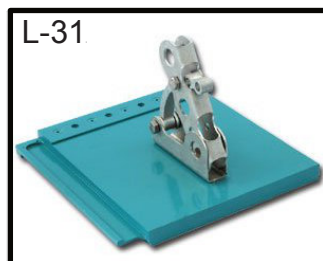

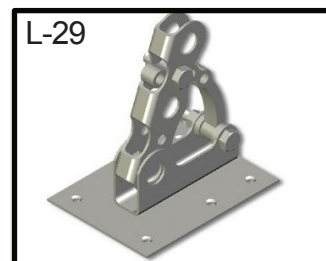

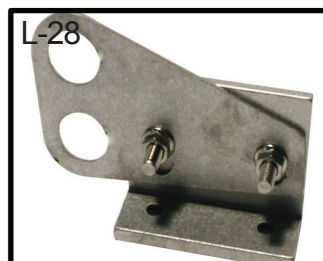

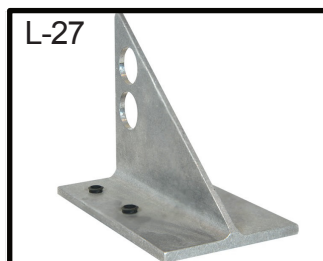

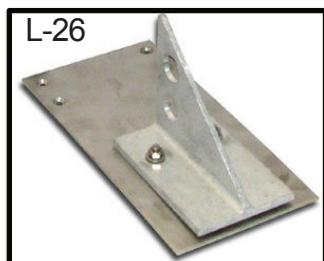

Forged from a solid block of recycled Aluminum. Measures 1 7/8" L x 1 1/2" W x 3 1/2" H overall. Accepts 3/8" OD Pipe (Tubing). Internal Couplings, End Collars and End Caps are available for this system.

L-24 Two-or-Three-Pipe Snow Guard

Designed to install directly to wood blocking or metal deck. Extruded Aluminum Bracket base measures 4" x 6". Stainless Steel Base Plate measures 6" x 8". 3 configurations available: 2-Pipe, 3-Pipe, 2 Hi-Pipe. All configurations accept 1" OD Pipe.

L-25 Two-or-Three-Pipe Snow Guard

Aluminum Bracket measures 6" L x 4" W x 5 1/8" H. Stainless Steel Base Plate measures 8" L x 8" W. 4 Metal Ferrules are designed to fit into insulation.

L-26 Two-or-Three-Pipe Snow Guard

Bracket measures 6" L x 4" W x 5 1/8" H. Stainless Steel Base Plate available in multiple sizes (see options tab). 3 configurations include 2-Pipe, 3-Pipe, 2 Hi-Pipe (Hi-Hole). All configurations accept 1" OD Pipe (Tubing)

L-27 Two-or-Three-Pipe Snow Guard

4 countersinks on the underside of the base accept Simple Seal bushings, which create a watertight seal when compressed. Bracket base measures 6" L x 4" W x 5 1/8" H. 3 configurations include 2-Pipe, 3-Pipe, 2 Hi-Pipe. All configurations accept 1" OD Pipe.

L-28 Two-Pipe Height Adjustable Snow Guard

Utilizes our patented Simple Seal compression fit technology. Height Adjustable. Overall measurement of assembled base and bracket is 6" L x 1 1/2" W x 5 7/16" H. Accepts 1" OD Pipe. Bottom of upper hole can be adjusted from 2 7/8" to 3 7/8" from roofing

L-29 Three-Pipe Height Adjustable Snow Guard

Bracket is available in Aluminum or Brass. Base Plate is available in Stainless Steel or Brass. Bracket measures a substantial 6" L x 1 1/2" W x 8 7/8" H. Base Plate can be flashed with optional compatible target patch. Accepts 1" OD Pipe.

L-30 Three-Pipe Height Adjustable Snow Guard

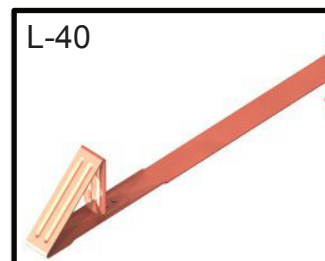

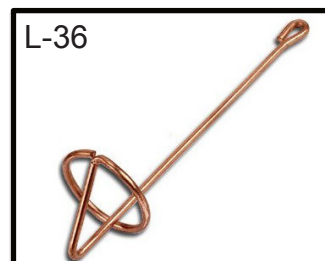

Bracket is available in Aluminum, Brass or Stainless Steel. Base Plate is available in Aluminum, Brass or Stainless Steel. Bracket measures a substantial 6" L x 1 1/2" W x 8 13/16" H.

L-31 Three-Pipe Height Adjustable Snow Guard and Base Plate for Ludowici Flat Tile

Bracket is available in Aluminum or Brass. Tile Base Plate is available in Aluminum or Brass. Tile Base Plate measures 14" L x 9" W x 7/8" H. Overall measurements (Tile Base Plate with Bracket extended to tallest, most upright position): 14" L x 9" W x 9 7/16" H. Accepts 1" OD Pipe (Tubing).

L-32 Three-Pipe Height Adjustable Snow Guard and Base Plate for Ludowici French Tile

Bracket is available in Aluminum or Brass. Tile Base Plate is available in Aluminum. Tile Base Plate measures 16 1/2" L x 9" W x 2 1/4" H. Overall measurements (Tile Base Plate with Bracket extended to tallest, most upright position): 16 1/2" L x 9" W x 10 15/16" H. Accepts 1" OD Pipe (Tubing).

L-33 Wire Loop Snow Guard with Flat Strap and Hook

Wire loop is 1 7/8" in diameter. Overall height is 1 5/16". Custom strap length and hook height available. Copper strap with hook allows this snow guard to be retrofit to slate or tile by sliding the strap up the course of tile.

L-34 Wire Loop Snow Guard with Flat Strap

Wire loop is 1 7/8" in diameter. Overall height is 1 5/16". Flat strap can be cut to custom length. Copper strap allows for attachment above the course of shingles to prevent water infiltration.

L-35 Wire Loop Snow Guard with Spike

Spike design means no fasteners are needed. Height is 1 5/16" (excluding spike). Overall length is 5 1/8". Strap length can be customized.

L-36 Wire Loop Snow Guard

Single eyelet attachment point. Wire loop is 1 7/8" in diameter. Overall height is 1 5/16". Overall length is 5 3/4".

L-37 Hybrid Pad/Pipe Style Snow Guard for Metal Roofs

Pad style with opening for 1" pipe. Extruded Aluminum construction. Slotted face will accept 3 3/8" color insert. Employs our patented Simple Seal technology for direct mechanical attachment and the proven built-in water proofing attributes.

L-38 Standing Seam Pad-Style Snow Guard

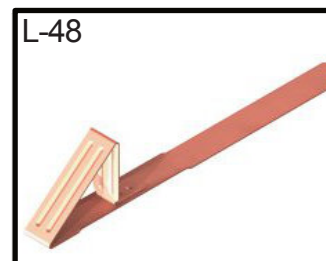

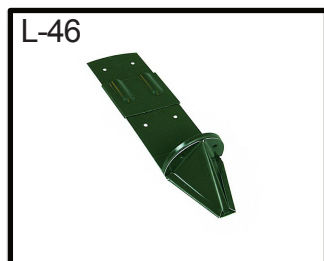

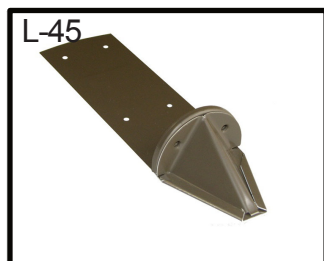

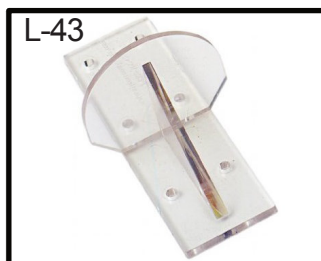

4 25/32" L x 2 1/8" H. "Saddle" design holds back snow and ice while allowing melt-off and rain to flow. For use on metal roofs with vertical standing seam/double lock panels. Available in Mill Finish or a of RAL TIGER Drylac® Exterior Powder Coating color.

L-39 Pad-Style Snow Guard

Fastens to the top of corrugation. "Saddle" design holds back snow and ice while allowing melt-off and rain to flow through. Designed to move the standard penetration point from the water drain channel to the top of the rib.

L-40 Pad-Style Snow Guard with Hook

The preferred choice for retrofit snow guards on tile roofing. Pad area is 3 7/16" L x 1 1/4" W x 2 15/16" H. Custom strap length and hook height available. Grooved front pad.

L-41 Half Round Pad-Style Snow Guard

Our riveted "fish head" design means optimum strength with no risk of unfolding. Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Custom strap length and hook height available

L-42 PD30 Half Round Pad-Style Snow Guard

Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Strap length is 3 7/16" L. Available in a multitude of Firestone® Una-Clad colors. Also available with a Fleur-de-lis embellishment.

L-43 PD30-CL Polycarbonate Pad-Style Snow Guard

Pad area is 2 11/16" L x 2 11/16" W (at widest point) x 2 11/16" H. Strap length is 3 1/16" L. Can be through-fastened (recommended) or adhered to roof.

L-44 PD30Z Half Round Pad-Style Snow Guard

Pad area is 2 7/16" L x 2 3/8" W (at widest point) x 1 1/2" H. Strap length is 3 15/16" L. 2" strap sleeve covers fasteners. Available in a multitude of Firestone® Una-Clad colors.

L-45 PD40 Half Round Pad-Style Snow Guard

Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Strap length is 6 1/2" L. Available in a multitude of Firestone® Una-Clad colors. Our riveted "fish head" design means optimum strength with no risk of unfolding.

L-46 PD40R (Retrofit) Half Round Pad-Style Snow Guard

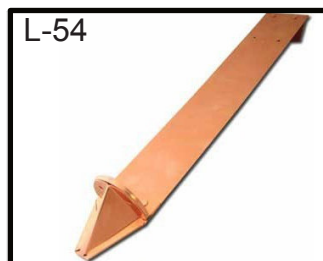

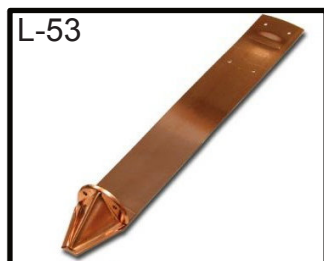

Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Strap length is 6 1/2" L. 2" strap sleeve covers fasteners. Available in a multitude of Firestone® Una-Clad colors

L-47 PD41 Half Round Pad-Style Snow Guard with Hook

Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Maximum strap length is 6 1/2" (custom lengths available). Maximum hook height is 1 1/4" (custom heights available). Also available with a Fleur-de-lis embellishment.

L-48 PD50 Pad-Style Snow Guard

Pad area is 3 7/16" L x 1 1/4" W x 2 15/16" H. Overall length is 18". Grooved front pad. Galvanized steel model is available in a multitude of RAL TIGER Drylac® Exterior Powder Coating colors. Taller profile is the perfect solution for thick cement tiles or deeper barrel tiles because it extends above the valley to engage snow on top of the tile.

L-49 PD11 Retrofit Half Round Pad-Style Snow Guard

Fits slate 16" - 20" in length. Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Standard strap length is 15 5/8" (custom lengths available). Ease of installation with a "slate rip" or similar tool - just slide under the upper lying course of shingles.

L-50 Alpine SnowPad Pad-Style Snow Guard

Compatible with metal roofing. Milled countersink on underside of pad accepts our Simple Seal bushing, creating our patented, watertight compression seal. Taller, wider profile than traditional pad-style snow guards for exceptional snow management

L-51 Alpine SnowPad Pad-Style Snow Guard

Aesthetically pleasing design. Compatible with composition shingle, slate, synthetic slate, and tile roofing (metal roofing version can be seen here). Taller, wider profile than traditional pad-style snow guards for exceptional snow management.

L-52 ASG33G Standing Seam Pad-Style Snow Guard

Pad area is 6 1/8" L x 3 9/32" H x 1/8" Thick. Utilizes oval point set screws. Extruded and Milled Aluminum fabrication. Uniquely shaped flag provides visual interest to any roof.

L-53 PD10 Half Round Pad-Style Snow Guard

Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Strap length is 15 5/8". Available in a multitude of Firestone® Una-Clad colors.

L-54 PD10R (Retrofit) Half Round Pad-Style Snow Guard

Fits slate 16" - 20" in length. Pad area is 2 3/8" L x 2 3/8" W (at widest point) x 1 7/16" H. Standard strap length is 13 5/8" (custom lengths available). Standard hook height is 1 1/4" (custom heights available)
